# Lamb Promotion, Research, and Information Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

summary: The Department of Agriculture (Department) is seeking comments regarding the establishment of an industry-funded promotion, research, and information program for lamb and lamb products including pelts but excluding wool and wool products. In response to an invitation published in the FEDERAL REGISTER to submit proposals for a Lamb Promotion, Research, and Information Order (Order), the Agricultural Marketing Service (AMS) received an entire industry proposal as well as two other partial proposals. With modifications, the full industry proposal and two partial proposals are set forth below for public comment. All comments will be considered before we issue a final rule establishing an Order.

Under the proposed program lamb producers, seedstock producers, feeders, and exporters would pay an assessment of one-half cent (\$.005) per pound when live lambs are sold. The first handler, primarily packers, would pay an additional 30 cents per head of lambs purchased by the first handler for

slaughter. The first handler would remit the total amount of assessment due to

the proposed Lamb Promotion, Research, and Information Board

(Board). The proposed program would be implemented under the Commodity Promotion, Research, and Information Act of 1996 and would apply to all sales of sheep and lambs.

### EXECUTIVE ORDER 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. Section 524 of the Act provides that the Act shall not affect or preempt any other Federal or State law authorizing promotion or research relating to an agricultural

commodity.

Under §519 of the Act, a person subject to the Order may file a petition with the Secretary stating that the Order, any provision of the Order, or any obligation imposed in connection with the Order, is not established in accordance with the law, and requesting a modification of the Order or an exemption from the Order. Any petition filed challenging the Order, any provision of the Order, or any obligation imposed in connection with the Order, shall be filed within 2 years after the effective date of the Order, provision, or obligation subject to challenge in the petition. petitioner will have the opportunity for a hearing on the petition. Thereafter, the Secretary of Agriculture (Secretary) will issue a ruling on a petition. provides that the district court of the United States for any district in which the petitioner resides or carries on business shall have the jurisdiction to review a final ruling on the petition, if the petitioner files a complaint for that purpose not later than 20 days after the date of the entry of the Secretary's final ruling.

# Executive Order 12866

This proposed rule has been determined not significant for purposes of Executive Order 12866 and therefore has not been reviewed by OMB.

# Regulatory Flexibility Act

In accordance with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 et seq.), the Agency is required to examine the impact of the proposed rule on small entities. The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions so that small businesses will not be disproportionately burdened.

The Act authorizes generic programs of promotion, research, and information for agricultural commodities.

Congress found that it is in the national public interest and vital to the welfare of the agricultural economy of the United States to maintain and expand existing markets and develop new markets and uses for agricultural commodities through industry-funded, Government-supervised, generic commodity promotion programs.

This Order is intended to develop and finance an effective and coordinated program of promotion, research, and information to

maintain and expand the markets for lamb and lamb products. In response to invitations to submit proposals published in the FEDERAL REGISTER November 23, 1999 [64 FR 65665] and January 12, 2000 [65 FR 1825], a proposed Order developed by the Lamb Industry Checkoff Exploration Team was submitted by the American Sheep Industry Association (ASI)(Proponent I). Proponent I proposed a program assessing lamb producers, feeders, first handlers, and seedstock producers.

While the proposed Order would impose certain recordkeeping and reporting requirements on persons subject to the Order, the information required under the proposed Order could be compiled from records currently maintained. First handlers and exporters would collect and remit the assessments on lambs to the Board.

Their responsibilities would include accurate recordkeeping and accounting of the number of lambs purchased, the names of the producers, seedstock producers, and feeders, and the purchase date. Required reporting forms require the minimum information necessary to effectively carry out the requirements of the program, and their use is necessary to fulfill the intent of the

Act. Such records and reports shall be retained for at least 2 years beyond the fiscal year of their applicability. These

requirements are already being conducted as a normal business practice. In addition, a person who is a market agency; i.e. commission merchant, auction market, or livestock market in the business of receiving lambs for sale on commission for or on behalf of a producer, seedstock producer, or feeder would be required to collect an assessment and pass the collected assessments on to the subsequent purchaser. There would be a minimal burden on persons who are market agencies. It is not anticipated that they would be required to submit records of their transactions involving lamb purchases and the required assessment collection to the Board. Information on such transactions could be obtained through an audit of the market agencies' records. Such records are already being maintained as a normal business practice. This would include such records or documents that evidence payment of an assessment pursuant to the requirements in §1280.225(b).

In addition, first handlers of lambs who seek nomination to serve on the Board would be required to complete a nomination form that would be submitted to the Secretary.

The added burden to first handlers and exporters for a lamb promotion, research, and information program is therefore minimal.

There is also a minimal burden on producers, seedstock

producers, and feeders. The burden relates to those producers, seedstock producers, and feeders who would seek nomination to serve on the Board, request a refund of assessments paid, and vote in referenda. In addition, the proposed Order would require producers, seedstock producers, and feeders to provide information to the Board or the Secretary when requested and to keep records to qualify for a refund. However, it is not anticipated that producers, seedstock producers, and feeders would be required to regularly submit assessment forms to the Board. In some instances, as part of the Board's compliance operation, the information would be obtained through an audit of producer's, seedstock producer's, or feeder's records to confirm information provided by a first handler or if a first handler did not file the required reports. When seeking nomination to serve on the Board, producers, seedstock producers, feeders, and first handlers would be required to complete one form that would be submitted to the Secretary by a certified organization to make nominations.

The estimated annual cost of providing the required information to the Board by an estimated 71,039 respondents (51,800 producers, 15,000 seedstock producers, 3,318 market agencies, 571 first handlers, 100 feeders, and 15 exporters)

would be \$993,388 or \$13.98 per respondent.

If the program is implemented, the Department would oversee program operations and conduct a referendum not later than

3 years after assessments first begin under this part.

Subsequent referenda would be conducted (1) not later than

7 years after assessments first begin to determine whether

lamb producers, seedstock producers, feeders, first handlers,

and exporters support continuation of the program, (2) at the

request of the Board established under the Order, or (3) at

the request of 10 percent or more of the number of persons

eligible to vote in referenda. Additionally, the Secretary

may conduct a referendum at any time to determine whether the

continuation, suspension, or termination of the Order or a

provision of the Order is favored by those eligible to vote in

the referendum.

There are approximately 51,800 producers, 15,000 seedstock producers, 100 feeders, 571 first handlers, and 15 exporters of lamb who would be subject to the program. Most of the lamb producers, seedstock producers, feeders, and exporters would be classified as small businesses under the criteria established by the Small Business Administration (SBA) (13 CFR 121.201). Most first handlers would not be

classified as small businesses. SBA defines small agricultural handlers as those whose annual receipts are less than \$5 million and small agricultural producers are defined as those having annual receipts of less than \$750,000 annually.

To compete against rising foreign imports and flat domestic demand, the domestic lamb industry has proposed a promotion and research checkoff program to improve production efficiency and promote consumption.

The domestic lamb industry is composed of two groups:

lamb producers and lamb packers and processors. Domestic lamb producers can be further divided into three groups: (1)

breeders of purebred sheep and lambs used for breeding purposes,

(2) commercial market producers who maintain sheep flocks to produce lambs for feeding and slaughter, and (3) commercial feed lot operators who feed lambs until ready for slaughter. The groups overlap and firms often perform two or more operations. Although many sheep production operations are located in the east, the majority of sheep are concentrated in the western and corn belt States. In the west and southwest, sheep production can be the most productive use of the land in some areas.

Packers and processors are the second component of the domestic lamb industry. Lamb packers are companies that slaughter lambs. Most packers also slaughter one or more other types of livestock. This part of the industry includes eight federally inspected firms accounting for 96 percent of the domestically slaughtered sheep and lambs. Processors, along with some packers, break lamb carcasses in to different cuts. There are less than 10 major processing firms and, like the packers, only a small portion of their operations are devoted to processing lamb.

Domestic lamb producers have been competing with surging foreign lamb imports. Between 1993 and 1997, lamb imports increased by 49.3 percent from 56.5 million pounds to 84.4 million pounds. The greatest increase in imports occurred during the period 1996 through 1997, when imports rose by

18.5 percent. Imports in 1998 were 30 percent above those in 1997, and imports in the first quarter of 1999 were 10 percent above those in the first quarter of 1998. As measured by quantity, imports captured 23.3 percent of the domestic market in January through September 1998, up from 11.2 percent in 1993.

The loss of market share is magnified by the fact that domestic per capita lamb meat consumption dropped from 1.3 pounds in 1993 to 1.1 pounds in 1995 where it remained through 1997.

Increasingly, imports have shifted away from frozen, unprocessed carcasses to value-added product categories. In 1993, fresh or chilled lamb meat accounted for only 20 percent of imports. By 1997, the figure had doubled to 40 percent. Processed lamb, particularly boneless cuts, have replaced lamb carcasses. Carcasses represented only 3 percent of 1997 imports whereas bone-in and boneless boxed lamb cuts accounted for

66.8 percent and 30.2 percent, respectively, of the carcassequivalent volume of imported lamb meat. Between January 1993
and June 1998, prices on imported Australian and New Zealand
lamb, which account for virtually all imported lamb, were
anywhere from 9.4 percent to 70.3 percent less expensive than
domestic products.

With the increase in lamb imports, the domestic production, packing and processing of lamb has dropped significantly. Domestic lamb meat production declined by 26 percent from

326.7 million pounds in 1993 to 243 million pounds in 1999.

Production was down 3 percent in May of 2000 compared to the same period in 1999. Domestic producers share of the net sales value on lamb has also declined with imports representing 30.7 percent in January through September 1998, up from 11.2 percent in 1993. The number of domestic lamb producers has decreased from 93,280 in 1993 to 74,710 in 1997, a 20 percent decline. With an estimated 2.2 workers per operation, the decline in lamb producers translates into a drop in workers from 205,216 in 1993 to 164,362 in 1997. Federally inspected sheep and lamb slaughtering plants have declined from 711 to 571. Only 9 plants can slaughter more than 100,000 sheep and lambs annually. One was closed in 1995 and another was closed in 1998.

Imports have also affected prices and sales. Direct prices for slaughter lambs dropped by 25 percent between the first quarter of 1997 and the first quarter of 1998. During the second quarter of 1998, direct prices were 17.6 percent lower than prices during the same period in 1997. Similarly, for the same

periods, auction prices fell by 20.5 percent and 14.9 percent, respectively. For packers, prices on carcasses dropped 30.8 percent between September 1997 and April 1998.

In response to the surge in imports, domestic producers

along with packers and processors filed a petition with the International Trade Commission (ITC) seeking import relief.

ITC conducted an investigation (Investigation No. TA 201-68) and found that imports have depressed prices and sales of domestic lamb causing serious harm to domestic producers' financial conditions (ITC Publication 3176, April 1999). It also found that although there is evidence that U.S. consumers prefer domestically produced lamb, domestic producers engage in little or no promotion. In recommending relief, a majority of the

commissioners stressed the need for an industry marketing program supported by checkoff funds to improve production and efficiency and increase demand.

Because of the decline in the domestic lamb industry caused by imports and flat demand, domestic producers are seeking ways to reverse this trend. A checkoff program to promote and market domestic lamb products is one way this could be accomplished. A coordinated promotion and marketing effort would help domestic producers compete more effectively against imports while increasing demand for lamb. It would also permit domestic producers to fund projects to develop

more effective and efficient production processes. More efficient production along with increased demand would lead to higher, more stable prices for producers, packers, and processors.

The proposed Order would authorize a fixed assessment paid by producers, seedstock producers, exporters, and feeders at a rate of one-half cent (\$.005) per pound of live lamb sold. In addition to the \$.005 per pound assessment on live lambs, first handlers would remit to the Board \$.30 per head on all slaughter lambs.

At the proposed rate of assessment of one-half cent (\$.005) per pound of live lamb sold and the additional \$.30 paid by packers on slaughter lambs, the Board would collect approximately \$3 million annually. It is expected that the assessment would represent less than 1 percent of producers' average return.

The program would be administered by a Lamb Promotion,
Research, and Information Board appointed by the Secretary
from industry nominations. The Secretary would certify
industry organizations that would nominate producers,
seedstock producers, feeders, and first-handlers to serve as
members on the Board. The Board would recommend the

assessment rate, programs and projects, budgets, and any rules and regulations that might be necessary for the administration of the program.

The Board would consist of 12 members: six producer representatives (three from each of the two regions), three feeder representatives, two first handlers, and one seedstock producer. The members primarily would be nominated by eligible regional, State, and national organizations within the respective regions that are certified by the Secretary.

Proposed recordkeeping and reporting requirements for the lamb promotion, research, and information program would be designed to ensure compliance and generate the data necessary for the effective conduct of the program.

The estimated annual cost of providing information to the Board by an estimated 71,039 respondents (51,800 producers, 15,000 seedstock producers, 3,318 market agencies, 571 first handlers, 100 feeders, and 15 exporters) would be \$993,388 or \$13.98 per respondent.

With regard to alternatives to this proposed rule, the Act itself provides authority to tailor a program according to the individual needs of an industry. Section 514 of the Act provides for orders applicable to producers, first handlers, and other persons in the marketing chain as appropriate.

Provision is made for permissive terms in an order in §516 of the Act and authorizes an Order to provide for coverage of research, promotion, and information activities to expand, improve, or make more efficient the marketing or use of an agricultural commodity in both domestic and foreign markets; provision for assessing imports; provision for reserve funds; and provision for credits for generic and branded activities. In addition, §518 of the Act provides for a referendum to ascertain approval of an Order to be conducted either prior to its going into effect or within 3 years after assessments first begin under the Order. An Order also may provide for its approval in a referendum to be based upon (1) a majority of those persons voting; (2) persons voting for approval who represent a majority of the volume of the agricultural commodity; or (3) a majority of those persons voting for approval who also represent a majority of the volume of the agricultural commodity. Section 515 of the Act provides for establishment of a board from among producers, first handlers, feeders, and others in the marketing chain as appropriated.

This proposal includes provisions for domestic expansion and improvement, reserve funds, and a delayed referendum.

Approval would be based upon the majority of those persons voting for approval who also represent a majority of the

volume of lambs produced, slaughtered, or exported during the representative period established by the Secretary.

We have not identified any relevant Federal rules that are currently in effect that duplicate, overlap, or conflict with this rule. While we have performed this Initial Regulatory Flexibility Analysis regarding the impact of this proposed Order on small entities, in order to obtain all the data necessary for a comprehensive analysis, we invite comments concerning potential effects of the proposed Order. In particular, we are seeking information on the number of first handlers, producers, seedstock producers, feeders, and exporters that would be covered by the program. In addition, we are interested in more information on the number and kind of small entities that may incur benefits or costs from implementation of the proposed Order and information on expected benefits or cost.

#### Paperwork Reduction Act

In accordance with OMB regulation (5 CFR Part 1320) that implements the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the information collection and recordkeeping requirements that may be imposed by this Order have been submitted to OMB for approval.

TITLE: Lamb Promotion, Research and Information Order.

OMB NUMBER FOR BACKGROUND FORM (NUMBER 1 BELOW): 0505-0001.

EXPIRATION DATE OF APPROVAL: July 31, 2002.

OMB NUMBER FOR OTHER INFORMATION COLLECTIONS: new collection.

EXPIRATION DATE OF APPROVAL: 3 years from date of approval.

TYPE OF REQUEST: Approval of new information collection.

ABSTRACT: The information collection requirements in the request are essential to carry out the intent of the Act.

Under the proposed program, first handlers and exporters would be required to collect assessments from producers and submit the required reports and remit assessments to the Board. Persons who are market agencies would be required to collect an assessment and pass the collected assessments on to the subsequent purchaser. It is not anticipated that they would be required to submit records of their transactions involving lamb purchases and the required assessment collection to the Board. While the proposed Order would impose certain recordkeeping requirements on persons subject to the Order, information required under the proposed Order

could be compiled from records currently maintained. Such records would be retained for at least 2 years beyond the fiscal year of their applicability. The estimated annual cost of providing the information to the Board by an estimated 71,039 respondents (51,800 producers, 15,000 seedstock producers, 3,318 market agencies, 571 first handlers, 100 feeders, and 15 exporters) would be \$993,388 or \$13.98 per respondent. Each first handler and exporter responsible for the collection of assessments and remittance of the assessments to the Board, would do so by the 15th day of the month following the month in which lambs were purchased for slaughter, exported, or

lambs or lamb products were marketed directly to a consumer.

It is anticipated that the bulk of assessments would be submitted to the Board by first handlers who purchased lambs for slaughter. A person such as a producer or feeder is considered a first handler when that person markets lamb or lamb products of their own production directly to a consumer.

The proposed Order's provisions have been carefully reviewed, and every effort has been made to minimize any unnecessary recordkeeping costs or requirements.

The proposed forms would require the minimum information

necessary to effectively carry out the requirements of the program, and their use is necessary to fulfill the intent of the Act. Such information can be supplied without data processing equipment or outside technical expertise. In addition, there are no additional training requirements for individuals filling out reports and remitting assessments to the Board. The forms would be simple, easy to understand, and place as small a burden as possible on the person required to file the information.

The timing and frequency of collecting information are intended to meet the needs of the industry while minimizing the amount of work necessary to fill out the required reports. In addition, the information to be included on these forms is not available from other sources because such information relates specifically to individual producers and first handlers who are subject to the provisions of the Act.

Therefore, there is no practical method for collecting the required information without the use of these forms.

Information collection requirements that are included in this proposal include:

#### Background

The Act authorizes the Secretary to establish agricultural commodity research and promotion orders. The Act provides for the submission of proposals for a lamb promotion, research, and information order by industry organizations or

any other interested persons affected by the Act. Section 516 of the Act provides permissive terms for orders, and other sections provide for alternatives. For example, §514 of the Act provides for orders applicable to (1) producers, (2) first handlers,

(3) feeders and others in the marketing chain as appropriate. Section 516 authorizes an order to provide for exemption of de minimis quantities of an agricultural commodity; different payment and reporting schedules; coverage of research, promotion, and information activities to expand, improve, or make more efficient the marketing or use of an agricultural commodity in both domestic and foreign markets; provision for reserve funds; provision for credits for generic and branded activities; and assessment of imports. In addition, §518 of the Act provides for referenda to ascertain approval of an order to be conducted either prior to its going into effect or within 3 years after assessments first begin under the order. The Act authorizes three different voting methods for approving an order in a referendum. Section 515 provides for establishment of a board from among producers, seedstock producers, first handlers, feeders, and others in the marketing chain as appropriate.

This proposed Order includes provisions for both domestic

and foreign market expansion and improvement, reserve funds, and a delayed referendum to be conducted within 3 years after assessments begin. The Order would be continued if approved the referendum by a majority of those persons voting who also represent a majority of the volume of lambs represented in the referendum.

Proponent I has requested the establishment of a national Lamb Promotion, Research, and Information Order pursuant to The Act authorizes the establishment and operation of generic promotion programs that may include a combination of promotion, research, and information activities funded by mandatory assessments. These programs are designed to maintain and expand markets and uses for agricultural commodities. This proposal would provide for the development and financing of an effective and coordinated program of research, promotion, and information for lamb and lamb products. The purpose of the program would be to strengthen the position of lamb and lamb products in domestic and foreign markets, and to develop, maintain, and expand markets for lamb and lamb products. The program would become effective following issuance of a final order with continuance subject to its approval in a delayed referendum conducted by the Department. Section 518 of the Act provides for the

Department (1) to conduct a required referendum, preceding a proposed Order's effective date, among persons who would be subject to assessments under the program or (2) to implement a proposed Order, pending the conduct of a referendum, among persons subject to assessments, within 3 years after assessments first begin. In accordance with §518(e) of the Act, an Order may provide for its approval in a referendum based upon (1) a majority of those persons voting; (2) persons voting for approval who represent a majority of the volume of the agricultural commodity; or (3) a majority of those persons voting for approval who also represent a majority of the volume of the agricultural commodity. Proponent I has recommended that a delayed referendum be conducted using the third approval option. Thus, the Secretary would conduct a referendum within 3 years after assessments first begin, in which approval of the Order would be determined by a majority of persons voting for approval who also represent a majority of the volume of lamb production represented in the referendum. The Act also requires the Secretary to conduct subsequent referenda: (1) not later than 7 years after assessments first begin under the Order; (2) at the request of the Board established under the Order; or (3) at the request of 10 percent or more of the number of persons

eligible to vote. In addition to these criteria, the Act provides that the Secretary may conduct a referendum at any time to determine whether the continuation, suspension, or termination of the Order or a provision of the Order is favored by persons eligible to vote.

The proposed Order also contains provisions that would allow persons to request a refund of assessments paid during the period beginning on the effective date of the Order and ending on the date the Secretary announces the results of the required referendum. The refunds would be paid from an escrow account established by the Board as provided for in §1280.214(c). Persons who filed a request for refunds during the specified time period would be entitled to a refund of assessments paid from the effective date of the Order until the Secretary announces the results of the referendum. If the amount in the escrow fund is less than the total refunds demanded, persons entitled to a refund would receive a pro rata share.

A national research and promotion program for lamb would help the industry to address the many market problems it currently faces. Domestic lamb producers have been competing with surging foreign lamb imports, competition from other meat and poultry, and changing consumer meat buying preferences.

Between 1993 and 1997, lamb imports increased by 49.3 percent from 56.5 million pounds to 84.4 million pounds. Imports in 1996 through 1997, which had the largest increase, rose by 18.5 percent. Imports in 1998 were 30 percent above those in 1997, and imports in the first quarter of 1999 were 10 percent above those in the first quarter of 1998. As measured by quantity, imports captured 23.3 percent of the domestic market in January through September 1998, up from 11.2 percent in 1993. The loss of market share is magnified by the fact that domestic per capita lamb meat consumption dropped from 1.3 pounds in 1993 to 1.1 pounds in 1995 where it remained through 1997.

Increased funding would allow the industry to expand its current consumer, food service, and food manufacturer promotion efforts. Also it would allow for increased participation in the Department's Market Access Program and the opportunity to develop stronger markets overseas. In addition, such a program would create the opportunity to explore tie-in promotional activities with nationally branded food products that would help the lamb industry gain advertising and in-store exposure.

The assessment levied on domestically-produced lamb would be used to pay for promotion, research, and information as

well as administration, maintenance, and functioning of the Board. Expenses incurred by the Secretary in implementing and administering the Order, including referenda costs, also would be paid from assessments.

Sections 516(e)(1) and (2) of the Act states that the Secretary may provide credits of assessments for generic and branded activities. The proponents have elected not to propose

credits for generic or branded activities. Therefore, the terms generic activities and branded activities are not defined in the Order.

First handlers and exporters would be responsible for the collection of assessments and remittance of assessments to the Board. First handlers and exporters would be required to maintain records of lambs purchased from each producer, seedstock producer, and feeder, by the first handler or exporter, including lambs produced or fed by the first handler or exporter. First handlers and exporters would be required to file reports regarding the collection, payment, and remittance of the assessments. In addition, a person who is a market agency; i.e. commission merchant, auction market, or livestock market in the business of receiving lambs for sale

on commission for or on behalf of a producer, seedstock producer, or feeder would be required to collect the assessment and pass the collected assessments on to the subsequent purchaser.

All information obtained from persons subject to this

Order as a result of recordkeeping and reporting requirements
would be kept confidential by all officers, employees, and
agents of the Department and of the Board. This information
may be disclosed only if the Secretary considers the
information relevant, and

the information is revealed in a judicial proceeding or administrative hearing brought at the direction or on the request of the Secretary or to which the Secretary or any officer of the Department is a party. Other exceptions for disclosure of confidential information would include the issuance of general statements based on reports or on information relating to a number of persons subject to an order if the statements do not identify the information furnished by any person, or the

publication, by direction of the Secretary, of the name of any person violating the Order, and a statement of the particular provisions of the Order violated by the person.

The Act requires that a proposed Order provide for the

establishment of a board to administer the program under Department supervision. Proponent I's proposal provided for a 12-member Board to ensure fair and equitable representation of the lamb industry on the Board. The Act requires membership on the Board to reflect the geographical distribution of the production of lamb and lamb products. To that end, the proposed Order would divide the United States into two geographic regions with three lamb producers on the Board from each region. There would be three lamb feeder members on the Board. One feeder would feed less than 5,000 lambs annually and two would feed more than 5,000 lambs annually. Two first handlers and one seedstock producer would be appointed as members of the Board. Members would serve for 3-year terms, except that the members appointed to the initial Board would serve proportionately for 1, 2, and 3 years. No member would serve more than two

Upon implementation of the Order and pursuant to the Act, the Board would at least once in each 5-year period, but not more frequently than once in each 3-year period, review the geographical distribution of lamb in the United States and

consecutive 3-year terms.

#### make a

recommendation to the Secretary after considering the results of its review and other information it deems relevant regarding the reapportionment of the Board.

In response to the invitation to submit proposals,

Proponent I submitted a proposed Order. In addition, two

partial proposals were submitted—one partial proposal from

the National Lamb Feeders Association and one from the U.S.

Seedstock Alliance.

Proponent I submitted a comprehensive Order. It contains sections embodying the provisions discussed above as well as provisions required by the statute and administrative provisions similar to those found appropriate or necessary under other promotion or marketing orders.

#### Proposal I

The proposed Order submitted by the American Sheep
Industry Association is summarized as follows: Sections
1280.101 through 1280.129 of the proposed Order define certain terms such as lamb, producer and first handler, which are used in the proposed Order.

Sections 1280.201 through 1280.211 include provisions relating to the Board. These provisions cover establishment and membership, nominations, nominee's agreement to serve,

appointment, vacancies, certification of organizations, term of office, compensation, removal, prohibited activities, and powers and duties of the Board, which is the governing body authorized to administer the Order through the implementation of programs,

plans, projects, budgets, and contracts to promote and disseminate information about lamb and lamb products, subject to oversight of the Secretary.

Sections 1280.212 through 1280.216 cover budget and expenses; require the Board to submit a budget for the fiscal year covering anticipated expenses and disbursements, investment of funds, escrow accounts, refunds, and procedures for obtaining a refund.

Sections 1280.217 through 1280.221 cover lamb purchases and authorize the collection of assessments; specify limitations on the use of funds; and specify who pays the assessment and how.

Sections 1280.222 through 1280.227 cover maintaining books and records, accounting for the receipt and disbursement of all funds; reports from each first handler to the Board including the number of lambs purchased and amount remitted, and use and confidentially of information. Also, every 5 years, the Board funds an independent evaluation of the

program.

Sections 1280.228 through 1280.236 discuss the rights of the Secretary; personal liability; separability; patents, copyrights, inventions, product formulations, and publications; amendments; referenda, which would be delayed (required referenda); suspension or termination; proceedings after termination; and effects of termination or amendment.

The Department has modified the proposal in order to

(1) make it consistent with the Act and other similar national research and promotion programs supervised by the Department,

(2) simplify the language and format of some provisions, and

(3) add certain sections necessary for proper administration of the Order by the Department.

A definition of lamb products was added for clarity and consistency with other similar programs. Definitions for Order, Suspend and Terminate were added to maintain consistency with the Act. A definition of conflict of interest was added for clarity. The definition for collecting person was deleted as it was not necessary given the specificity in other provisions of the order. In the definition for "Promotion" some minor adjustments were made for clarity.

Section 1280.201 Establishment and membership, has an additional subsection (c), "Adjustment of membership," which provides for reapportionment of the Board.

Section 1280.202 "Nominations" was edited to mirror the language in the Act, for consistency with other national research and promotion programs, and for clarity.

Section 1280.205, "Initially established Board," from the proposed Order was deleted and combined with §1280.202

"Nominations" in the modified proposed Order.

Section 1280.208 "Term of office," from the submitted proposed Order was modified to conform to language in the Act.

Section 1280.210 "Powers and duties of the board" was edited, organized, and modified to be more consistent with other national research promotion programs and the Act.

In the table of contents and the regulatory text, "Assessments" was included as the undesignated center heading for §1280.217 through §1280.221. "Expenses" was included as the undesignated center heading for §1280.212 through §1280.216.

Section 1280.215, from the proposed Order, "Use of assessments" was deleted because it is covered in "Powers and

duties of the Board."

Section 1280.216 "Refund Escrow Accounts" from the proposed Order was divided into two sections to enhance and clarify the escrow requirements in §1280.214 "Refund escrow accounts" and the refund requirements in §1280.215 "Refunds." The refund requirements were adjusted to provide consistency in the payment of refunds whether the Order is approved or defeated in the referendum.

Section 1280.217 "Lamb purchases" was revised by adding paragraph (b) to exclude from assessment those persons who facilitate the transfer of ownership of lambs from the seller to a third party.

Section 1280.211 "Prohibited activities" was added to be consistent with the Act.

Section 1280.212 "Budget and expenses" was substituted for the separate sections "Budgets" and "Expenses" from the proposed Order for clarity and consistency with the Act.

Section 1280.222 "Books and records of the board" was added prior to "Reports" to be more consistent with the Act.

Section 1280.227 "Confidentiality," was revised to be more consistent with other national research and promotion programs.

#### Proposal II

The National Lamb Feeders Association (NLFA) proposed definitions for feeder, producer, and seedstock producer. We have accepted this proposal for comment and identified it in §1280.107, §1280.116, and §1280.122 in the regulatory section under Proposal II.

NLFA proposed that further explanation of certified organizations be incorporated to bring clarity to the process through which the Secretary certifies various organizations as qualified to make nominations to the Lamb Board. We have not accepted this proposal because Proposal I adequately addresses the process through which the Secretary would certify such organizations.

NLFA proposed that eligibility to vote in a referendum include proof of participation via an assessment deduction within the prior 12 months. We have not accepted this proposal because the Act gives the Secretary flexibility in determining the length of the representative period and eligibility to vote applies to the production or handling of the agricultural commodity covered by the order or the importation of the agricultural commodity.

NLFA proposed that under the establishment and membership

of the Board, the Secretary be authorized to appoint only one feeder representative who annually feeds 5,000 or more head of lambs and to appoint two feeders who annually feed less than 5,000 head of

lamb. We have accepted this proposal for comment and identified it in §1280.201(a)(2)(i) and (ii) in the regulatory section under Proposal II.

NLFA proposed language that the collecting person would report the name of any person refusing to allow assessments to be collected and that the collecting person shall not be liable for the assessment. We have not accepted this proposal because §517(a)(1) of the Act requires the first handler to remit assessments and this section does not provide for relieving first handlers of their responsibility to pay assessments.

NLFA proposed that to ensure adequate diversity and breadth of representation, the Secretary should not appoint more than four members nominated by a single organization. We did not accept this proposal because this could unduly restrict the Secretary from making appointments of Board members.

NLFA proposed that a subsequent referenda be held no later than 7 years after assessment begin and every 5th year

thereafter. We have not accepted this proposal because the Act contains sufficient provisions for additional referenda. After the initial referendum, the Act allows for subsequent referenda

at the request of the Board, at the request of 10 percent or more of the number of persons eligible to vote, or as the Secretary may direct.

# Proposal III

The U.S. Sheep Seedstock Alliance proposed that the Order be approved in a referendum by a majority of those persons voting. We have accepted this proposal for comment and identified it in §1280.233(a)(2) in the regulatory section under Proposal III.

The Department has also received letters from other interested parties. The Department did not consider these letters to be proposals because they primarily addressed information relating to sections already established under the Act. Copies of these letters, the three proposals, and the comments received in response to this proposed Order, will be available for public inspection.

On June 25, 2001, the United States Supreme Court issued

a decision in the case of <u>United States v. United Foods</u>, <u>Inc.</u>
(<u>United Foods</u>), that held that the imposition of mandatory
assessments to fund generic mushroom advertising violated the
First Amendment insofar as it required the mushroom industry
to subsidize commercial speech with which they disagreed. The
Court expressly declined to reach the question whether the
generic advertising conducted under the mushroom program
constitutes government speech.

The Department will analyze all written views received to date as well as written comments on the three proposals published below before issuing a final Order.

# List of Subjects in 7 CFR Part 1280

Administrative practice and procedure, Advertising, Lamb and Lamb product, Consumer information, Marketing agreements, Reporting and recordkeeping requirements.

The full proposal and two partial proposals set forth below have not received the approval of the Secretary.

For the reasons set forth in the preamble, it is proposed that Title 7 of Chapter XI of the Code of Federal Regulations be amended as follows:

- (2) A primary purpose of the organization is in the production or marketing of lamb or lamb products.
